

rainbowtrekkers

Early childhood development center

rainbowtrekkers is a bilingual English-German kindergarten catering to children from 1 year to 6 years in Cologne (Köln). We work according to various progressive educational concepts such as Montessori and Reggio Emilia.

We strongly believe that respecting and appreciating each child's individual personality is the starting point of all education. The *rainbow* stands for the variety of children in our kindergartens. *Trekkers*, as in '*trekking*', suggests that education is a continual, fluid process - a journey into life on which we help to guide the children in our kindergartens.
