

The **UPinLT program** has been an impactful experience for me as an international student at **Mykolas Romeris University**. Through my internship at **Yara Lietuva**, I gained hands-on experience in supply chain operations, from managing orders and maintaining data integrity in SAP to coordinating complex transport workflows. This opportunity not only allowed me to apply my academic knowledge in a real world setting but also helped me develop essential professional skills, grow my confidence and build meaningful connections within the industry.

What made this program stand out was its focus on integrating international students like me into the Lithuanian job market while fostering cultural and professional growth. The **UPinLT initiative** certainly has strengthened my career prospects and encouraged me to contribute to Lithuania's professional landscape. I do hope that, in the future, other students will also be able to benefit from such valuable opportunities—it's an experience that can contribute meaningfully to a student's career journey, just as it has played a pivotal role in mine.

**IREM, MRU student Of Faculty of Public Governance and Business**
