

UNIVERSITY
OF OSLO

International Summer School

It is our pleasure to announce that applications to the International Summer School (ISS) summer courses 2025 at the University of Oslo are now open!

The 2025 summer courses

For summer 2025, we are pleased to offer six undergraduate courses, and three graduate courses. The 4-week ISS courses will begin on Monday, June 30, while the 6-week Norwegian language courses start on June 23.

Please note the application deadline: March 1

Students earn 10-20 ECTS per summer course at ISS.

Partner universities of the University of Oslo are welcome to reach out to us to discuss potential student exchange opportunities. Nominated exchange students from partner universities are exempt from paying tuition fee. Students earn 10 ECTS in the summer semester at ISS, and the exchange balance is therefore calculated at a 3:1 ratio, where three summer students are equivalent to one semester student. This will be counted in the general exchange balance for the academic year 2024/2025.

Award-winning summer courses

The International Summer School at the University of Oslo has offered a wide range of credit-bearing summer courses since 1947. ISS has been awarded the University of Oslo Prize for Excellent Learning Environment. A total of over 33,000 students from more than 150 countries have attended our program. As in earlier years, the evaluations from last year's students are very positive, giving testimony of a summer of academic achievement combined with a rich social environment and activities program.
